Network Communication Platform

Unified Communications  
Anytime, Anywhere

## Communication as a factor of success

Enhance your business with solutions designed to meet your ever changing communication needs. With wireless mobility, advanced productivity applications, network based solutions and a common infrastructure that supports companies with distributed and geographically diverse office locations, help connect all your users with customers – wherever they may be.

Simple to deploy, administer and maintain – the Panasonic KX-NCP Unified Communications Solution is a highly reliable, expandable and feature-rich business platform that integrates with your converged voice and data network, providing you with improved business productivity.

Facilitating more effective ways of communication with both your employees and customers, the KX-NCP platforms allow anytime anywhere access to a whole host of business communication applications via a range of smart and user-friendly wired and wireless devices. KX-NCP platforms, enabling businesses to enhance employee productivity, streamline communications and lower overall costs.

## Panasonic Communication Assistant

As personal computers have become an essential business tool, Panasonic has developed a Network Communication Platform to seamlessly integrate with advanced desktop productivity applications for improved business efficiency.

The Panasonic Communication Assistant productivity software suite is a highly intuitive PC based application suite. It blends powerful point and click telephony together with screen based presence, integration with Microsoft Outlook®, CRM desktop tools, and a great variety of other features to simplify and enhance real-time communications for business telephony users. Designed for easy installation and maintenance, Communication Assistant can be deployed without the need of any additional 3rd party server, making it an ideal solution for small to medium size businesses.

### CA Basic

Point and click Unified Communications for desk based or remote workers. CA Basic helps you visually control all your communications from your PC.

### CA Pro

In addition to CA Basic the CA Pro provides users with real-time presence information. It allows visual control of all your communications from a PC and you stay informed of users availability in different locations.

### CA Supervisor

CA Supervisor is the perfect tool for team supervisors to monitor employees' call activities. It helps you visually manage all your group members telephony activities.

### VM Assistant

VM Assistant enables unified messaging and allows users to check their voicemail messages visually from a PC. It also allows you to forward messages to others as .wav files.

## KX-NT300 – The Perfect Team Player

The Panasonic KX-NT300 Series advanced IP desktop phones are designed for business users who require a range of feature-rich telephony devices to compliment their constantly changing business needs. Connected to the NCP platforms, the IP terminals are extremely reliable and provide a wide range of features to support the right solution for all your business applications. Ergonomically designed with features and functions to enhance users daily productivity, they are ideal for many applications including contact centre agents or advanced desktop applications supporting a range of wired and Bluetooth headsets.

## Every Call Matters

Whether you work in an office, a factory, a warehouse, a supermarket, or other large facility, the Multi-Cell DECT system keeps you in constant touch with colleagues and customers even when you are not at your desk. Communication can easily be extended outside the office by enabling mobile integration functionality. Enjoy the freedom to communicate wirelessly with crystal clear voice quality. Receive your customers' calls wherever you may be and make the most of every business opportunity that comes along.

## Wireless for NCP series

Panasonic Office Communication Systems allow wireless communication over an extended range by using multiple cell stations that boost the flexibility and mobility of your wireless handset. Using the Wireless XDP, you can set your wireless telephone to have the same extension as your desk phone, so you can receive calls even when you are away from your desk.

## Benefits of Wireless Telephone Integration

- Up to 64 handsets can be connected to one system
- Secure high-quality speech reproduction and excellent reliability
- Caller ID name and number compatibility
- Programmable multiple ring patterns including vibrate mode.

## DECT 6.0

## Advanced Messaging Solutions by Panasonic

### KX-TVM50/200 Voice Messaging Systems - Never Miss A Call

The human voice is still the best way to communicate. Panasonic offers two feature-packed voice processing systems designed for efficient communication. The KX-TVM50 and KX-TVM200 offer automated attendant, automatic call routing, and message notification, each of which can be customized to your individual needs.

## Efficiency Pays Off

In tough economic times increasing productivity and cost containment are the key factors for success. A VoIP telecommunication solution from Panasonic will provide a quick return-on-investment lowering expenses such as travel and communication while increasing employee efficiency, availability and optimizing your business communication processes.

The Voicemail Assistant Module allows users to check their voicemail messages visually from a PC as well as forward messages to others as .wav files.

The Panasonic Communication Assistant Pro with its rich presence functionality improves the availability of you and your staff and makes it possible to easily transfer calls to a desired destination.

Panasonic KX-NT700 IP Conferencing Solution is the perfect tool to save on travel cost and streamline your communications.

## Your Investment – Protected

The Panasonic KX-NCP systems are designed to be modular, expandable and flexible in both technology and the business application solutions. Equipped with network based communication applications that, when enabled, provide return on investment and peace of mind. A future proof design and open standards based architecture means that customers can be assured that their investments are protected now and well into the future.

Highly modular and designed to improve your business communication workflow the new NCP platforms are ideal communication systems that solve many of your business communication needs today. With intelligent call routing and call centre functionality, together with integral desktop productivity applications, the NCP platform enables businesses to effectively reach, serve, and retain your customers. The new platforms are packed with features and applications that can enhance your business productivity.

## An Affordable System that Adds Value to Your Business

The Panasonic KX-NCP systems are extremely cost effective solutions. As an example, Mobile Integration can help businesses manage their business hours and employee availability using the one number concept. Employees remain mobile while still being aware of other co-worker's availability and presence.
